

Bobcat Approved Attachment

Steel Tracks

Grouser

One Tough Animal

A Bobcat Approved Attachment For Bobcat® Skid-Steer Loaders*

Why Tracks?

- Improved performance in rough, rocky or muddy conditions
- Better flotation
- Reduced ground pressure

Bobcat Approved Attachment **Steel Tracks** Grouser

Grouser Track Design Features

Installation and Removal

After initial installation, most track sizes can be reinstalled in less than 30 minutes. (Always refer to the complete installation instructions prior to installing tracks.)

Using a rope or chain, the tracks are easily pulled over the tires by backing the loader slowly.

No matter what size Bobcat loader you have, there is a set of steel tracks to fit your application. Contact your local Bobcat dealer for pricing and availability.

Grouser Cross-Bar Track Features

- Open bar design utilizes the tire to provide maximum traction and flotation.
- Improves traction and flotation in soft, muddy and loose conditions.
- Open side plate allows excellent cleaning in the pivot area.
- Can be installed in less than 30 minutes or removed in 10 minutes.
- Induction-hardened crossbars and traction bars.
- 1-1/4 in. hardened replaceable bushings.
- Run loose design.
- Self-cleaning.
- Provides tire protection.
- Built-in length adjustment.
- Field-serviceable and rebuildable.

NOTE - Where applicable, dimensions are in accordance with Society of Automotive Engineers (SAE) and ISO standards. Specifications and design are subject to change without notice. Pictures of Bobcat loaders may show other than standard equipment. All dimensions are shown in inches. Respective metric dimensions are enclosed by parentheses. Bobcat Company complies with the requirements of ISO 9001 as registered with BSI.
*This attachment may be approved for selected new Bobcat models. See your Bobcat dealer for details.

*The Bobcat Attachments Advantage:
Bobcat attachments are engineered and manufactured to fit Bobcat loaders for optimum job performance, dependability and durability.*
